What's your favorite holiday and why? (3 minutes total)

Illinois Energy Package

25% renewables by 2025

New build credits for clean energy including community solar, low income solar, brownfield solar and DG projects

ComEd will reduce energy demands 21.5% by 2030

Ameren will reduce energy demands by 16% by 2030

\$25 million/year spent on EE programs for low income households

While roughly 70% of the program dollars allocated by FEJA fund the renewable energy and energy efficiency provisions described above, it also includes support for two of Exelon's nuclear plants in the form of a new "Zero-Emission Standard" (ZES)

Ohio Table Builds Power and Wins!

Used their power analysis to see where they could strategically build power

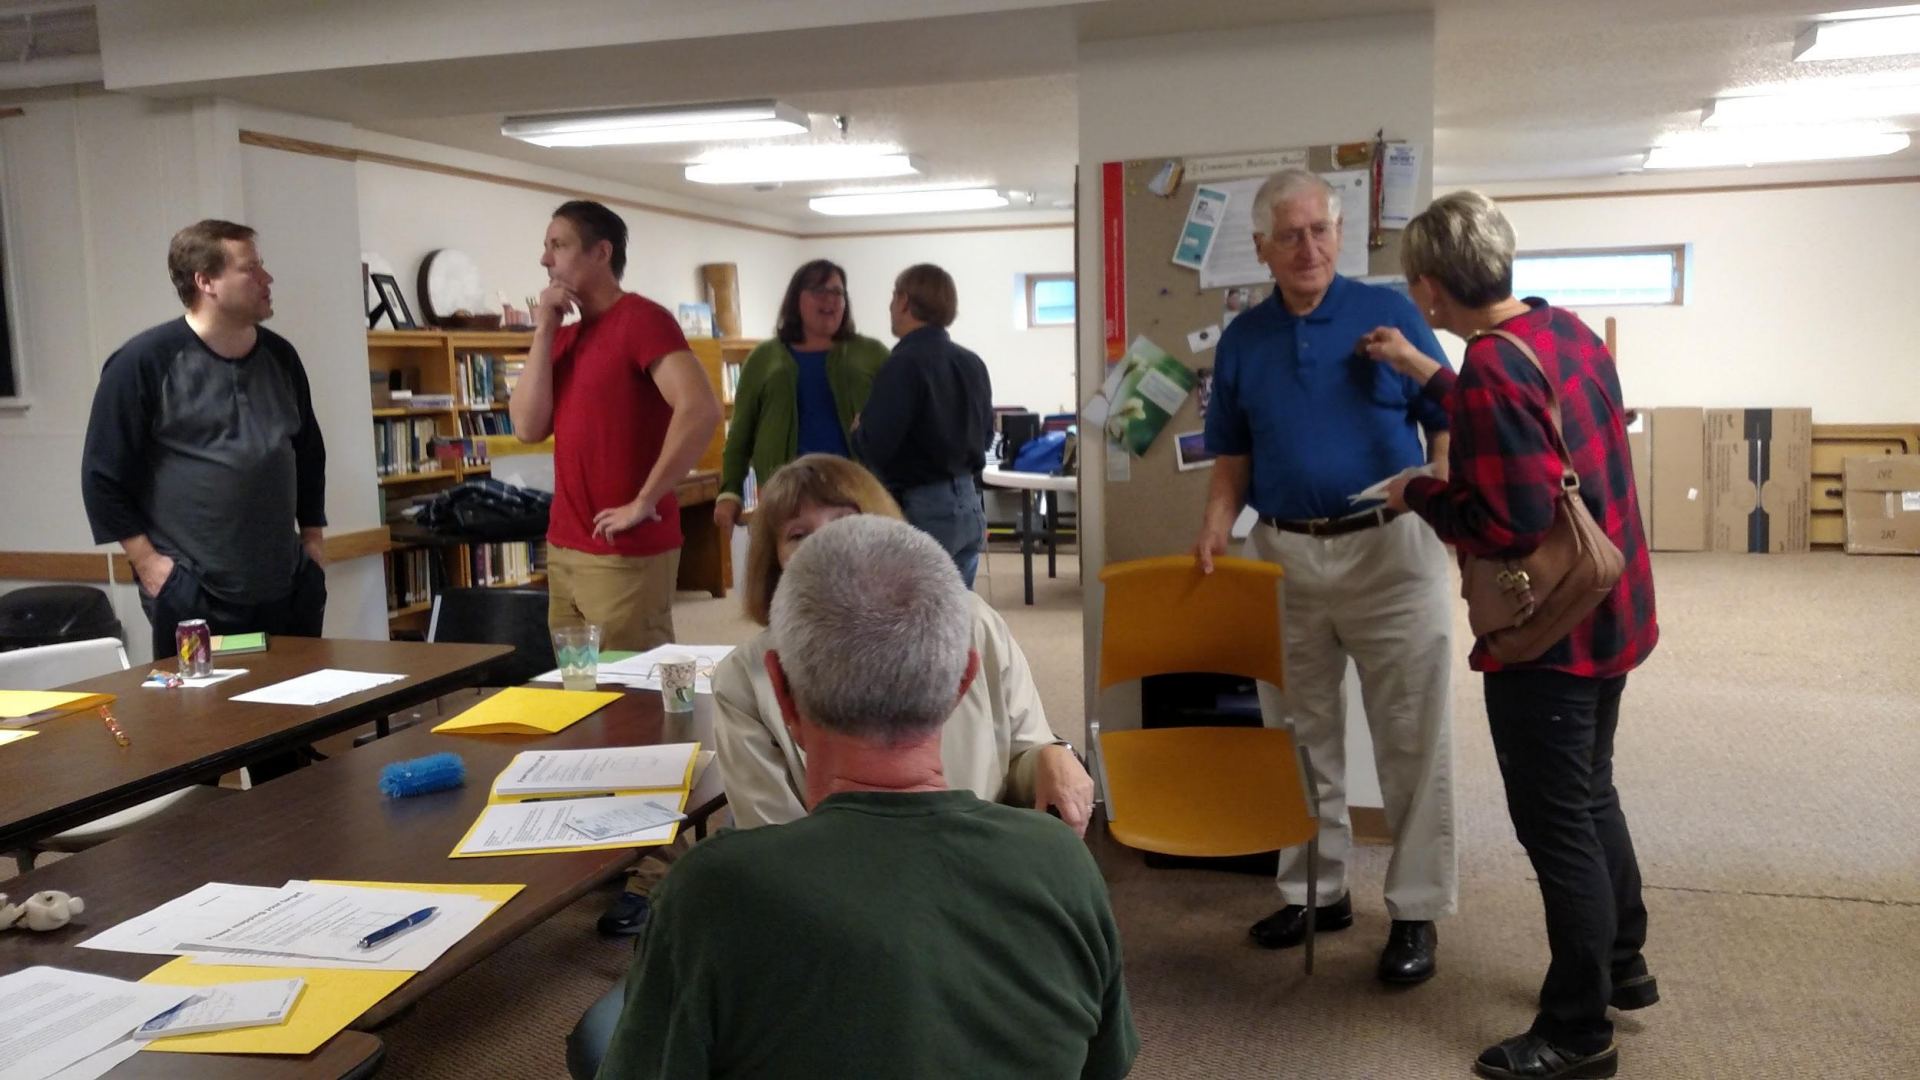

Ohio Energy Table successfully rallies public to force the Governor to veto a freeze extension.

Won over enough legislators to prevent a veto override

Energy Efficiency and Renewable Energy Standards Unfroze!

STANDING ON THE SIDE OF
LOVE
www.standingontheedgeoflove.org

Handwritten notes on a whiteboard, including "New Research" and "Theological" in red ink.

A small sign on a man's cap that says "I AM PRO-LIFE".

Handwritten notes on a whiteboard in the background.

political effects on vulnerable
- relationship among poor from community
① DPLC (open and new approach)
② Expanded PPS
③ Private power for energy policy now

Movement Capacity
① Increase collaboration among coalitions
interest alignment among them
assemble coalition to media organization
on our side
- organizing ppl that should be
or treatment
- other advocacy

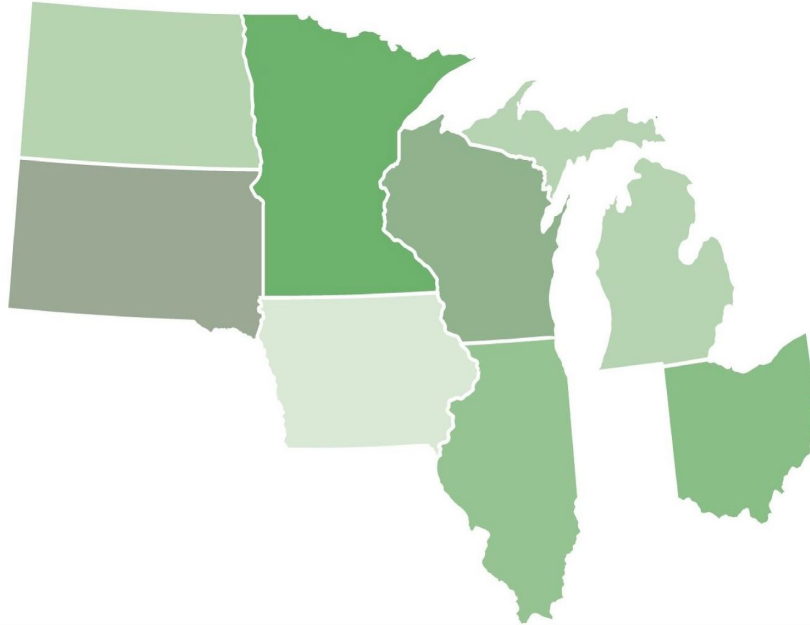

① Let people speak
People who speak need to speak
work for others to speak the language
② All consulted
③ Be Present

Lightning Round!

What are you most excited about for this year?

Thank you for participating!

The recording and slides will be available on the RE-AMP website.

Select **ACTIVITY** from the black navigation bar at the top of your screen.

Select **WEBINARS** from the left hand side *Group Resources Menu*
